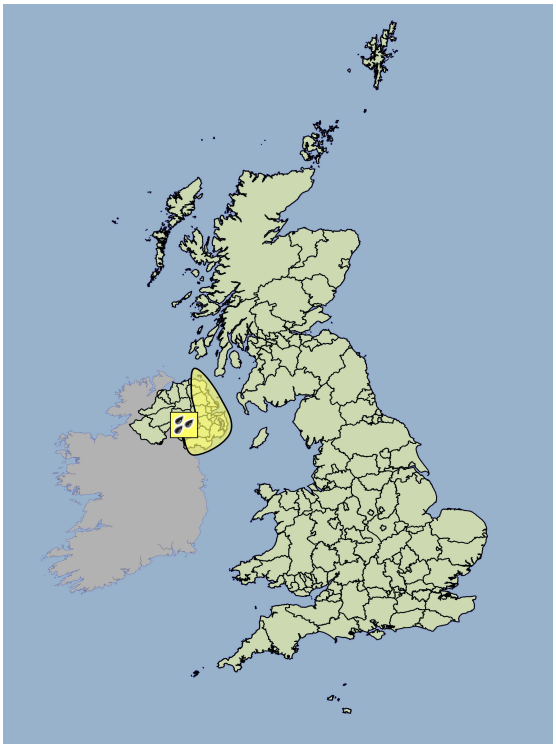
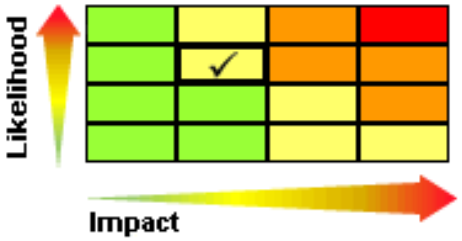
National Severe Weather Warning Service





Chief Forecasters Assessment
A complex situation as bands of rain move slowly north across the province over the next 36 hours, before easing from the west later on Thursday. High ground exposed to the fresh southeasterly wind is expected to see the largest totals, possibly exceeding 40 mm, while some other areas, particularly in the east may see around 25 mm.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **16:00 on Wed, 02nd Apr 2014** until **23:59 on Thu, 03rd Apr 2014**

Outbreaks of rain will spread from the south during Wednesday and will continue at times on Wednesday night and probably into Thursday, this most likely in the east. Some of the rain will be heavy and the public should be aware that this may bring the risk of localised surface water flooding.
